

MovePA

ANNUAL CONFERENCE

Oct. 16-18, 2020

Virtual Courses and Opportunities

[PPTA.ORG/MOVEPA](https://www.ppta.org/movepa)

TOP REASONS TO ATTEND MOVEPA 2020

Get inspired by our keynote address from member Stephen Carp, PT, PhD, GCS, on Humanism and Immigration Medicine: Clinical, Behavioral and Ethical Lessons to Be Learned.

Connect with physical therapy professionals in the commonwealth through this virtual conference:

- Membership Meeting (members only.)
- B.Y.O.B (Bring Your Own Breakfast) Legislative Update Meeting.

Since it's a renewal year, you can earn the following continuing education credits:

- 8.75 general and 5 direct access contact hours (live and recorded - available until Dec. 31, 2020.)
- 8 direct access and 1.5 general contact hours (live only.)
- 1 general contact hour (recorded only.)

View on your own time! Most sessions are recorded and available until Dec. 31, 2020.

Catch up on the latest PT and PTA news in the commonwealth.

PPTA 2020 MOVEPA ANNUAL CONFERENCE

JOIN US THIS OCTOBER VIRTUALLY

Join us for our first fully virtual PPTA MovePA Conference. Due to the restrictions of gatherings in Pennsylvania, the PPTA Board of Directors and Conference and Continuing Education Committee opted for a virtual conference. Although we will not be meeting in person (and I will really miss this too), we still have many of the same features of conference including excellent programming, our Annual Membership Brew and Business (BYOB this year), Special Interest Group programming, Legislative Update, Research presentations (with a RECORD number of submissions this year), Awards recognition ceremony and our Keynote address by Dr. Stephen Carp.

Our speakers have agreed to a hybrid model of presentations so you can still attend live and ask questions (or even type them in the chat boxes) as if you were in the room. This year, in a licensure renewal year, we are committed to offering you quality programming allowing at least 10 hours of evaluative hours and if you fully participate in all the sessions, you could earn more than 15 contact hours. And for a member price of only \$20! You read that right, member price is \$20, non-member price is \$50 and ALL students can log in for \$5. And we are not finished. Not only can you attend the weekend of conference, but we will be offering select programming in a recorded manner until Dec. 31, 2020 which is included in the registration fee. If you have joined us before, you realize what a BARGAIN this truly is. If you have not, now is the time to leverage that member value and attend MovePA Conference.

Back by popular demand will be exercise Zoom sessions. We will start these prior to the programming start times in the morning. Each session will be individualized so maybe this is the year you start with exercising your body and continue with exercising your brain.

In order to conduct business of the association, we will be hosting a LIVE virtual membership meeting. At this event, you will meet and hear from our candidates for Chapter office, hear the updates from PPTA including the proposed motions for the Chapter. But this year, instead of voting right after those presented motions, we will have electronic voting via email for our proposed motions.

The PPTA Board of Directors has been working on a plan to have opportunity for giving at our MovePA conference. This year, we will offer opportunity at registration and during the conference to directly donate to [FeedingPA](#). The money donated by our attendees will remain in PA helping those with food insecurity.

So, while we may not be physically together in October, we hope you JOIN US for a great conference, with a GREAT price and many of the same GREAT activities. We want you to be engaged and we want you to be safe. I look forward to Oct. 16-18 and hope we can connect during conference in some way.

SCHEDULE AT A GLANCE

FRIDAY, OCT. 16

8:30 a.m.-9:30 a.m.

Legislative Update Breakfast

9:30 a.m.-10:30 a.m.

Opening and Keynote Speaker

10:45 a.m.-2:00 p.m.

Part One: Differential Diagnosis

2:30 p.m.-5:15 p.m.

Part Two: Differential Diagnosis

5:30 p.m.-7:00 p.m.

Awards & Business Membership Meeting

SATURDAY, OCT. 17

8:00 a.m.-10:00 a.m.

Part One: Operation Rehab Storm

8:00 a.m.-10:45 a.m.

Part Three: Differential Diagnosis

11:00 a.m.-1:00 p.m.

Part Two: Operation Rehab Storm

11:00 a.m.-1:15 p.m.

Part Four: Differential Diagnosis

1:30 p.m.-3:30 p.m.

Research Platform Presentations

SUNDAY, OCT. 18

8:30 a.m.-10:30 a.m.

Part One: Differential Diagnosis and Physical Therapy Treatment of Osteosarcopenia, a New Syndrome

8:30 a.m.-10:30 a.m.

Teletherapy in Pediatrics

10:45 a.m.-12:45 p.m.

Part Two: Differential Diagnosis and Physical Therapy Treatment of Osteosarcopenia, a New Syndrome

10:45 a.m.-12:45 p.m.

A Case Based Look at Integrating Orthopedic and Neurologic Treatment Principles

CONFERENCE PLANNING/EDUCATION COMMITTEE

CONFERENCE SCHEDULE

FRIDAY, OCT. 16, 2020

- 7:30 a.m. **Exercise Zoom Session**
- 8:30 a.m.-9:30 a.m. **2020 Legislative Update *BYOB** Breakfast** 
- 9:30 a.m.-10:30 a.m. **Keynote Speaker** – Humanism and Immigration Medicine: Clinical, Behavioral and Ethical Lessons to Be Learned – Stephen Carp, PT, PhD, GCS 
- 10:45 a.m.-2:00 p.m. **Part One: Differential Diagnosis - Introduction** – Dawn Gulick, PhD, PT, AT, CSCS 
- 2:30 p.m.-5:15 p.m. **Part Two: Differential Diagnosis - Pediatric & Adolescence** – Dawn Gulick, PhD, PT, AT, CSCS 
- 5:30 p.m.-7:00 p.m. **Awards & Business Membership Meeting** 

SATURDAY, OCT. 17, 2020

- 7:15 a.m. **Exercise Zoom Session**
- 8:00 a.m.-10:00 a.m. **Part One: Operation Rehab Storm - The Assault on Chronic Pain at VA Pittsburgh Healthcare System: Preventing the Transition from Acute Pain to Chronic Pain** – Nickolas Vlastic, DPT 
- 8:00 a.m.-10:45 a.m. **Part Three: Differential Diagnosis - Adult** – Dawn Gulick, PhD, PT, AT, CSCS 
- 11:00 a.m.-1:00 p.m. **Part Two: Operation Rehab Storm - The Assault on Chronic Pain at VA Pittsburgh Healthcare System: Preventing the Transition from Acute Pain to Chronic Pain** – Nickolas Vlastic, DPT 
- 11:00 a.m.-1:15 p.m. **Part Four: Differential Diagnosis - Geriatric** – Dawn Gulick, PhD, PT, AT, CSCS 
- 1:30 p.m.-3:30 p.m. **Research Platform #1** 
Research Platform #2 

SUNDAY, OCT. 18, 2020

- 7:30 a.m. **Exercise Zoom Session**
- 8:30 a.m.-10:30 a.m. **Concurrent Educational Sessions**
- Part One: Differential Diagnosis and Physical Therapy Treatment of Osteosarcopenia, A New Syndrome** – Joanne P. Fagerstrom, PT, CFP // Lisa Goussetis, PT, CCTT // Timothy Kauffman, PT, PhD, FAPTA, FGSA  *Sponsored by Geriatric SIG*
- Teletherapy in Pediatrics** – Lisa Mackell, MPT  *Sponsored by Pediatric SIG*
- 10:45 a.m.-12:45 p.m. **Concurrent Educational Sessions**
- Part Two: Differential Diagnosis and Physical Therapy Treatment of Osteosarcopenia, a New Syndrome** – Joanne P. Fagerstrom, PT, CFP // Lisa Goussetis, PT, CCTT // Timothy Kauffman, PT, PhD, FAPTA, FGSA  *Sponsored by Geriatric SIG*
- A Case Based Look at Integrating Orthopedic and Neurologic Treatment Principles** – Andrew Zang, DPT, OCS, MTC, FAAOMPT // Jennifer Brown, PT, DPT, GCS  *Sponsored by Private Practice SIG*

Posters: All poster presentations will be pre-recorded and made available through Dec. 31, 2020

SESSION OBJECTIVES

KEYNOTE – HUMANISM AND IMMIGRATION MEDICINE: CLINICAL, BEHAVIORAL AND ETHICAL LESSONS TO BE LEARNED

Stephen Carp, PT, PhD, GCS

Friday, Oct. 16 // 9:30 a.m.-11:00 a.m.

Contact hours:

1 General

- Develop a conceptual framework for the development of a multidisciplinary pro bono immigration clinic.
- Identify the unique medical and behavioral diagnoses common among the non-citizen immigrant community.
- List care-givers' precautions when working with the non-citizen immigrant population.
- List common social, medical, and behavioral red flags associated with the non-citizen immigrant population.
- Define the common immigration terms utilized in the immigration literature.
- Understand the importance of the various APTA documents relating to ethics within a conceptual framework of caring for the non-citizen immigrant.
- Analyze the impact of physical therapy service to the non-citizen immigrant in a pro bono arena on the physical therapy student.

DIFFERENTIAL DIAGNOSIS

Dawn Gulick, PhD, PT, AT, CSCS

Friday, Oct. 16 // Part One: 10:45 a.m.-2:00 p.m. //

Part Two: 2:30 p.m.-5:15 p.m.

Saturday, Oct. 17 // Part Three: 8:00 a.m.-10:45 a.m. //

Part Four: 11:00 a.m.-1:15 p.m.

Contact hours:

Part One: 3 Direct Access

Part Two: 2.5 Direct Access

Part Three: 2.5 Direct Access

Part Four: 2 Direct Access

- Identify at least 2 screening examination procedures per system to identify pathologies that fall outside the scope of physical therapy.
- Given a cluster of signs & symptoms, evaluate the examination findings and identify when to make appropriate referrals to other healthcare providers.
- Apply evaluation results and make appropriate recommendations for further medical testing and diagnostics within the scope of physical therapy practice.

- Identify at least 5 medical "red flags" which would contraindicate physical therapy intervention and/or require a medical referral across a variety of patient scenarios.
- Appraise data gained from a history and diagnostic tests/procedures, and weigh the data in the context of the results of the physical therapy examination to develop a realistic differential diagnosis with the scope of physical therapy practice.
- Apply relevant research to the field of physical therapy primary care.
- Apply the skills of differential diagnosis across all age groups and in consideration of individual differences amongst clients and patients.
- Discuss the signs, symptoms, and examination findings that differentiate common musculoskeletal, neuromuscular, cardiopulmonary, gastrointestinal, and other disease states that a physical therapist may encounter.
- Participants will learn the referred pain patterns originating from visceral organs.
- Describe medical "red flags" that may require urgent medical consultation or emergency attention.

OPERATION REHAB STORM - THE ASSAULT ON CHRONIC PAIN AT VA PITTSBURGH HEALTHCARE SYSTEM: PREVENTING THE TRANSITION FROM ACUTE PAIN TO CHRONIC PAIN

Nickolas Vlastic, DPT

Saturday, Oct. 17 // Part One: 8:00 a.m.-10:00 a.m. //

Part Two: 11:00 a.m.-1:00 p.m.

Contact hours:

Part One: 1 Direct Access, 1 General

Part Two: .5 Direct Access, 1.5 General

- To teach clinicians to recognize the difference between acute pain and chronic pain.
- To teach clinicians to understand the physiological transition from acute pain to chronic pain.
- To introduce clinicians to the Pain Mechanism Classification System.
- To teach clinicians to apply Pain Neuroscience Education to patients as risk for transitioning from acute pain to chronic pain.

KEY TO SYMBOLS

Live and Recorded

Live Only

SESSION OBJECTIVES

DIFFERENTIAL DIAGNOSIS AND PHYSICAL THERAPY TREATMENT OF OSTEOSARCOPENIA, A NEW SYNDROME

Joanne P. Fagerstrom, PT, CFP // Lisa Goussetis, PT, CCTT
// Timothy Kauffman, PT, PhD, FAPTA, FGSA

Sunday, Oct. 18 // Part One: 8:30 a.m.-10:30 a.m. // Part Two: 10:45 a.m.-12:45 p.m.

Contact hours:

Part One: .75 General, 2.25 Direct Access

Part Two: .75 General, 1 Direct Access

- Recognize that bone health is a lifelong concern.
- Differentiate osteoporosis from sarcopenia and explain their relationship as it relates to Geroscience.
- Utilize evidence-based assessment and intervention strategies in the patient care setting and on an interprofessional level.
- Apply evidence-based interventions to persons with Osteosarcopenia in the areas of balance, fall prevention, and exercise prescription.
- Identify the essential nutrients needed to support a healthy skeleton and understand the "Calcium Paradox."
- Identify the various classes of medications commonly prescribed for Osteoporosis, with an overview of their risk/benefit profiles.
- Describe the role of Physical Therapists for patients with vertebral compression fractures.
- Develop strategic marketing concepts to help persons with Osteosarcopenia.

TELETHERAPY IN PEDIATRICS

Lisa Mackell, MPT

Sunday, Oct. 18 // 8:30 a.m.-10:30 a.m.

Contact hours:

1.25 General - PA Residents;

(2 General - Non-PA Residents that accept Practice-Building hours)

- Understand basic terminology and guidelines to providing telehealth services as a physical therapist, according to APTA and PPTA.
- Learn how to verify insurance coverage and medical policies related to telehealth and how it applies to therapy, along with proper billing coding.
- Understand how the state and county funded programs in early intervention and school programs interpret teletherapy across the state.
- Learn easy home activities to share with families whom they are engaging in teletherapy with.

A CASE BASED LOOK AT INTEGRATING ORTHOPEDIC AND NEUROLOGIC TREATMENT PRINCIPLES

Andrew Zang, DPT, OCS, MTC, FAAOMPT

// Jennifer Brown, PT, DPT, GCS

Sunday, Oct. 18 // 10:45 a.m.-12:45 p.m.

Contact hours:

.5 General, 1.5 Direct Access

- To educate clinicians on how to integrate both orthopedic and neurological treatment principles into a client's plan of care.
- To identify key functional impairments necessary to address as part of a comprehensive plan of care.
- To practice hands-on skills having the potential to improve delivery of care and patient function and outcomes.
- To clinically reason through cases selecting the appropriate intervention with neurological and orthopedic needs.
- Understand how to progress or modify various exercises as necessary based upon patient response and presentation.

SPEAKER BIOS

JENNIFER BROWN, PT, DPT, GCS

Jennifer Brown, PT, DPT, GCS, grew up locally in the Philadelphia suburbs, and she received her Master's degree in Physical Therapy from Springfield College in 1996 and her transitional Doctorate in Physical Therapy from Temple University in 2009. Jen was awarded her "Geriatric Clinical Specialist" certification in 2009. Brown worked for Main Line Health for 15 years and is the founder and CEO of "Dynamic Home Therapy", which started in 2011. Since then, Brown has grown her niche neurological practice providing comprehensive PT, OT and speech therapy in the greater Philadelphia suburbs with an "outpatient at home model." She was certified in LSVT BIG for Parkinson's in 2011, the Balance-Based Torso-Weighting in 2012, and PWR (Parkinson's Wellness Recovery) for Parkinson's in March 2020. In 2018 she opened her first outpatient wellness center, called Dynamic NeuroFit in Devon, PA. She started to run Rock Steady Boxing for Parkinson's classes at this location, along with other community wellness classes for those with neurological diagnoses. She serves as an adjunct faculty member at Drexel University and provides education and CEU events to many local and national organizations including the PPTA, Parkinson's Council, the Alzheimer's Association, Rock Steady Boxing, and she was awarded as a "Partner in Care" for the MS Society in 2018. In her spare time Brown loves to stay active with her fiancé Steve, and three active teenagers, Luke, Matt and Brooklyn, along with trail running, hiking, boxing, and hot yoga.

STEPHEN CARP, PT, PHD, GCS

Stephen Carp, PhD, PT, GCS, is currently an Assistant Professor in the Doctor of Physical Therapy Program at DeSales University, Center Valley PA. His PhD is in Motor Control and he is also a Geriatric Certified Specialist. He teaches in the areas of Geriatrics, Motor Control, Motor Learning, Clinical Medicine, Professional Development, Management of Physical Therapy Practices, and Research. His areas of research interest include: effectiveness of non-government support of the poor, doctoral program admissions, immigration medicine, and exercise and its relationship to cognition and fall-risk. He has authored over 15 publications and has published three textbooks. He has served as an item writer for the Federation of State Boards of Physical Therapy and has developed three continuing education programs for the APTA. Carp is a Combined Sections Meeting proposal reviewer for the Academy of Physical Therapy Education and APTA Acute Care Physical Therapy. He has presented at numerous national meetings and was awarded the "2019 Distinguished Educator Award" by the Academy of Geriatrics of the American Physical Therapy Association. He is a journal reviewer for six journals including the "Journal of the American Physical Therapy Association" and is a grant reviewer for the U.S. Army and the Army Medical Research and Material Command and the Occupational, Safety and Health Administration. He has a broad community service agenda including co-directing the Norristown Immigration Clinic, CAPS of Widener University, the Society of Saint Vincent DePaul, and directing the pro bono Rehabilitation Clinic at St. Catherine's Infirmary in Germantown, PA. For the past seven years he has led

a physical therapy student-directed service trip to Guatemala. Dr. Carp maintains a clinical practice at Chestnut Hill Hospital, Philadelphia, PA. He resides in Harleysville Pennsylvania with his wife Diane. He and Diane have four children and two grandchildren.

JOANNE FAGERSTROM, PT, CFP

Joanne Fagerstrom, PT, CFP, graduated from Hunter College in 1978. She practiced in various Philadelphia area teaching hospitals, Temple University Hospital, Pennsylvania Hospital and Chestnut Hill Hospital, before launching her private practice, Mindful Physical Therapy, LLC, in 2012. Fagerstrom has taught her public workshop, Taking Charge of Your Bone Health, throughout the Delaware Valley since 2011, and teaches her weekly Strong Bones exercise classes at her studio in Wyndmoor, PA. In 2015, Fagerstrom produced and released an instructional bone health exercise video. Fagerstrom is a member of the APTA and the Geriatric SIG. In 2017, she received a Certificate in Nutrition from Cornell University. Her certification in the Feldenkrais Method adds a unique dimension to Fagerstrom practice of physical therapy.

LISA GOUSSETIS, PT, CCTT

Lisa Goussetis, PT, CCTT, graduated from Boston University in 1983 with a B.S. in Physical Therapy. She practiced at Harvard University teaching hospitals while living in Boston for 13 years, developing a specialty in the treatment of cervical and TMJ injuries. Her continuing education has focused on mobilization, myofascial release, cranial therapy, and exercise for special populations. Goussetis has practiced in outpatient settings in three states, and she continued her education at Drexel University from 2009-2010, studying the cervical spine and upper quarter. Goussetis is a member of the APTA, PPTA and integrates Pilates into her PT practice as a Stott-certified Mat and Reformer instructor. In 2015, She became a Certified Cervical Temporomandibular Therapist (CCTT), making her one of 50 such practitioners in the nation. She became a Peer Educator for American Bone Health in 2015 and a member of the advisory board of Peer Educators in 2019. She is currently pursuing certification as an Aging in Place Specialist.

DAWN T. GULICK, PHD, PT, AT, CSCS

Dawn T. Gulick, PhD, PT, AT, CSCS, is a Professor of Physical Therapy at Widener University in Chester Pennsylvania. She has been teaching for more than 25 years. Her areas of expertise are orthopedics, sports medicine, modalities, and medical screening. As a clinician, she has owned a private orthopedic/sports medicine practice. As a member of the Olympic Sports Medicine Society, Gulick has provided medical coverage for all summer Olympic Games since 1993. She has been the medical provider at numerous national and international events. As a scholar, Gulick is the author of 4 books, 4 book chapters, more than 50 peer-reviewed publications, and more than 100 professional and civic presentations. She is the developer of a mobile app, iOrtho+ (Apple, Android, & PC versions). Her

SPEAKER BIOS

app has been downloaded over 160 thousands times across 14 countries. She currently has a utility patent pending for the Mobil-Aider, an orthopedic medical device, approved by the FDA. She is the recipient of 12 research grants, including a National Science Foundation Phase I and Phase II SBIR to develop the Mobil-Aider™ device. She is a member of Life Sciences PA and Philadelphia Alliance of Capital and Technology (PACT) and participates in Philly Start-up and Female Founder and Funders events. Gulick earned a Bachelor of Science in Athletic Training from Lock Haven University, a Master of Physical Therapy from Emory University, and a Doctorate in Exercise Physiology from Temple University. She is an AMBUCS scholar and a Chapter Officer of Phi Kappa Phi and a member of Kappa Delta Pi Honor Societies. As a licensed physical therapist, she has direct access authorization. She also is a certified strength and conditioning specialist.

TIMOTHY KAUFFMAN, PT, PHD, FAPTA, FGSA

Timothy L. Kauffman PT, PhD, FAPTA, FGSA started his physical therapy career 50 years ago. His diverse experience includes work in the U.S. Army and Reserve Unit Hospitals, nursing homes, home care, research, lecturing, and private practice. He served as an adjunct professor as well as a clinical instructor for a number of physical therapy schools. Kauffman has lectured and presented research across the U.S. and internationally. His seminal research has shown that older persons can significantly increase muscle strength and that person over the age of 90 years with hip fractures can benefit from skilled rehabilitation. He is the lead editor for 3 editions of "A Comprehensive Guide to Geriatric Rehabilitation" which is translated into Portuguese and Chinese.

LISA MACKELL, MPT

Lisa Mackell, MPT, is the Founder and recently retired President of Theraplay, Inc., a family of pediatric companies that provide children's physical, occupational, speech, developmental, applied behavioral analysis therapy and special education services. Mackell graduated from University of the Sciences in 1988 and founded Theraplay, Inc. in 1991. In 2015, Theraplay partnered with DFW Capital Partners, forming the Theraplay Family of Companies. Today, the Theraplay Family of Companies consists of six pediatric companies, across four states, spanning from Pittsburgh to Virginia, with 32 pediatric therapy centers, several hundred school contracts, over 600 employees, and 500 independent contractors. Mackell has spoken on topics nationally including business management, leadership, staff motivation, customer service, parenting, child development and human resources. Mackell has also provided inservices at high schools and teenage camps on career development, leadership and goal setting. Mackell is the Board President of Learning to Lead, a non-profit corporation that teaches leadership and entrepreneurship to area middle and high school students. Mackell is the Chair of the Pediatric SIG for the Pennsylvania Physical Therapy Association, and Program Workgroup Chair for the Combined Sections Annual Conference for the Private Practice Section of the American Physical Therapy Association.

NICKOLAS VLASIC, DPT

Nick Vlastic DPT TPS served in the United States Marine Corps during Operation Desert Storm. He then earned an Associates Degree in Physical Therapist Assistant at CCAC. Employed at UPMC Shadyside Hospital for 24 years, he earned his transitional master's degree in Physical Therapy at the University of Findlay and his transitional doctorate degree in Physical Therapy at the University of Pittsburgh. A vanguard of drug tested strength training for over three decades, he won the 1996 AAU Military Powerlifting Championships and finished in second place at the 1997 AAU RAW National Powerlifting Championships. He holds five 100% RAW Federation national powerlifting records in three weight classes, to include the master's national total record in the 220 lb. class at 1590 lbs. and the open national bench press record in the 242 lb. class at 485 lbs. For many years he promoted/directed the RAW Pittsburgh Powerlifting Championships and once the RAW Pennsylvania State Powerlifting Championships. He now serves as a judge at the 100% RAW Federation World Championships. Currently employed at the Veterans Administration Pittsburgh Healthcare System, his clinical focus is chronic pain rehabilitation. He earned a Therapeutic Pain Specialist certification through Evidence in Motion. He serves as a key member of the team that developed the CARF accredited Interdisciplinary Pain Rehabilitation Program. He is a member of the Veteran's Administration Field Advisory Council that develops evidence-based chronic pain resources. He lectures frequently at local universities on pain rehabilitation. He is currently enrolled in the Fellowship in Pain Science through Evidence in Motion.

ANDREW ZANG, DPT, OCS, MTC, FAAOMPT

Andrew Zang, DPT, OCS, MTC, FAAOMPT, graduated from the University of Pittsburgh's Doctor of Physical Therapy program in 2008. In 2012, Zang completed a year-long training with Evidence in Motion to achieve his Certification in Manual Therapy. He then became Board Certified in Orthopedics by the American Board of Physical Therapy Specialists (2014). From there, Zang completed a Fellowship in Orthopedic Manual Therapy with Evidence in Motion (2014-2016). In 2016, Zang started "Zang Physical Therapy," whose mission is to help individuals age 40+ to regain an active lifestyle free from pain medications, injections, and even surgery. At Zang PT, each and every client is treated by the primary PT each and every session. Also in 2016, Zang began to serve as a faculty member for Evidence in Motion (EIM). With EIM, Zang instructs both online in the orthopedic management courses as well as the orthopedic residency and weekend intensive courses related to musculoskeletal management. Additionally, Zang serves as an adjunct instructor for both South College in Knoxville, TN and Baylor University in Waco, TX. When not treating patients, Zang enjoys spending time with his wife, Allison, and daughter, Alivia. Together they all enjoy running and working out along with hiking and traveling.

REGISTRATION INFORMATION

Registration Types	Pricing
PT/PTA Member	\$20
PT/PTA Non-member Rate	\$50
Student	\$5
Lifetime Member	Free

REGISTRATION INFORMATION

This year your registration includes access to the live sessions and recordings. **Please note that NOT ALL SESSIONS WILL BE RECORDED.** Please refer the course agenda for more information.

The sessions that will be recorded will be available until Dec. 31, 2020. To receive contact hour credit you **must** complete and submit the attestation form and note each course you attend. Contact hour certificates will be sent to the email address you register with.

To verify membership in PPTA, all PPTA members **MUST** include their APTA number. The PPTA Office will cross-reference all attendees to ensure the correct registration type has been selected. If a non-member selects the member price, he or she will receive an invoice for the balance.

Attestation forms will be provided and verified against registration, any attestation forms submitted without prior registration, will not be honored until payment is made.

We will not provide or honor any any cancellations or substitutions.

**SEE YOU AT THE
CONFERENCE!**

SAVE THE DATE - MOVEPA 2021
